PROFILE

BCA student focused on frontend development, with a solid foundation in HTML, CSS, and JavaScript. I build responsive web interfaces and am currently learning React.js and TypeScript through practical projects. Swastha Nepal Clinic is my main learning project, where I practiced component-based development, connecting a frontend to a database, debugging, and browser testing. I am looking for an opportunity to contribute my current skills, learn from an experienced team, and grow step by step as a developer.

TECHNICAL SKILLS

Core Skills	HTML5, CSS3, JavaScript, Responsive Web Design
Currently Learning	React.js, TypeScript
Tools & Exposure	Tailwind CSS, Vite, React Router, Playwright, Git, GitHub, Figma, REST APIs, Supabase, PostgreSQL, PHP, MySQL

PROJECTS

Swastha Nepal Clinic

Jul 2026

Learning project - React.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Playwright

- Built this project while learning React.js and TypeScript, moving beyond tutorials to understand how a complete responsive application works.
- Created a step-by-step appointment flow, doctor and service pages, enquiries, and a read-only admin dashboard; practiced database rules and browser testing.

HR Admin Dashboard

Jul 2026

React practice project - Tailwind CSS, React Router, Vite

- Practiced reusable components and responsive layouts by building employee, onboarding, leave, and analytics interfaces with mock data.

[GitHub](#)

Personal Portfolio

2026

HTML, CSS, JavaScript, React/Vite

- Created a responsive portfolio to present my projects, skills, contact details, and ongoing learning journey.

[Live site](#) | [GitHub](#)

Hotel Management System

Jan-Mar 2026

PHP, MySQL, JavaScript, HTML, CSS

- Built room, reservation, customer-record, and front-desk features with a custom responsive interface.
